SUMMER

Water is part of our everyday life. It is around us and within us... 70% of our planet

is covered by it and 70% of our body is made of it. Have you ever seen nature programmes which show the desert in the rain? The ground looks parched but when the rain falls hidden seas explode into vibrant coloured flowers.

Without water nothing can survive. Water brings life. Jesus called himself "Living Water", those who drank his water would never be thirsty again. But water can also bring death. Polluted water brings disease and floods ruin homes. The churches in Kingswood are supporting 'Water Aid' to ensure people have access to safe, clean water. Come along to the Teas on the Abbey Green to support Water Aid.
